

Bird Study

Boy Scout

Merit Badge Program

Birds are the most watchable wildlife, offering everything from a pleasant glance, an enjoyable hobby, or a rewarding career. We'll practice using binoculars and field guides, head outside to observe the birds of the salt marsh, and build a bird feeder to take home.

We'll also be getting ready for the annual Christmas Bird Count. The data collected during this 117 year tradition helps scientists see patterns and make decisions about habitat conservation. We'll be learning how to tell one bird from another and doing a count of our own, comparing it to what's been seen lately. Really Cool Science Stuff!!

Fee: \$8.00 per Scout

Saturday, December 9, 2017

10:00 - 12:00 PM

Wildlife Research & Conservation

Winter Bird Study

Cadette, Senior, & Ambassador

Girl Scout Program

Scientists and citizen scientists (just like you!) have devoted their lives to furthering our understanding of the natural systems and our role in them. Learn about careers with wildlife and the interesting work being done as you get a chance to do a little research of your own.
