

Adventure Chest

Can't join us in person? No problem!

Over the course of nine weeks, we are offering a weekly Summer Nature Program Adventure Chest. Two Adventure Chests are available each week: one for younger children Ages 4-7; and one for older children Ages 8-13 with different, age-appropriate contents in each Adventure Chest.

Each Summer Nature Program Adventure Chest is packed with everything you'll need to explore the weekly theme, including activities, games, crafts, experiments, videos, places to go, things to do, access to our secret virtual Bitmoji Adventure Space, and a special surprise from the Tidepool Shop!

Chests are available for curbside pick-up at The Wetlands Institute on the first day of the program or mail-order delivery to your door.

June 30-July 2

Creation Nation: Crafting with Nature

Get your artistic juices flowing this week! We'll be learning about nature while we use natural materials in a variety of ways to have fun creating all kinds of cool and awesome arts and crafts.

Registration deadline June 23, 2021.

July 5-9

Wild Walks: Explore the Shore

Locating coastal habitats and their wild treasures are all part of this week's quest. Bring your sense of adventure! We'll be making maps and following the changing clues as we go on safari from one seaside area to another.

Registration deadline June 28, 2021.

July 12-16

Nature's STEAM, STREAMS, & STEMs

Everywhere we look we are surrounded by nature's inspiration. Fish and submarines, nests and shelters, wings and airplanes: it's all about the shape and patterns of things. Bring your thinking cap this week. We'll be examining natural structures, then designing and building some of our own.

Registration deadline July 5, 2021.

July 19-23

Close Encounters with Micro-Macro Wildlife

How would it feel to be the size of a newly hatched snail? What would the view be like soaring on the edge of an osprey's wing? What would you need to hang on tight as the waves crash in and out with the tides? Let's take a look at nature up, down, over, under, near and far to imagine life on a different scale.

Registration deadline July 12, 2021.

July 26-30

Weather or Not Climate Science

Sun, clouds, wind, rain, and storm, from one day to the next the conditions outside are changing. We're predicting a flood of science fun for this week. Rain or shine.

Registration deadline July 19, 2021.

August 2-6

Fins, Scutes, Scales, & Tails

It's turtally awesome to dive into this reptilian and amphibious world! To turtles, fish, toads, lizards and snakes, living is the name of the game. With body parts, behaviors, habitats, and more, you'll discover exactly what it takes to survive.

Registration deadline July 26, 2021.

August 9-13

Secrets of the Way Down Under

Discover the creatures that live lives unseen. Dissect logs and shake, shake, shake to see how soil is made. The underground is full of tales of cycles, ebbs and flows, landscapes, and wildlife. Get ready to dig in and explore how the land has changed wildlife and ... how wildlife has changed the land.

Registration deadline August 2, 2021.

August 16-20

Marine Mammals and the Sea Life Web

Beams of sunlight energy join all life in the ocean, and on land. Let's connect to the ocean's internet as we weave our way around the watery food web from the tiniest plankton to the humongous, hungry whales.

Registration deadline August 9, 2021.

August 23-25

Creation Nation: Seashells in My Pockets

You've been collecting shells all summer long. Now flex your creative mollusks and let's create some fun crafts and art while we learn about the animals that made them. Memories of your summer fun. Littorally!

Registration deadline August 16, 2021.
