

**Barbara and Jim Summers Environmental Education
Scholarship Fund**

**Science Education at Sea (SEAS) Program Application
Academic Year 2022 - 2023**

Each educator applying for a scholarship must submit a completed application, which includes the school and lead teacher information below, answers to the application questions, a formal bussing estimate/quote (if applicable), and the signed letter of support from a school administrator. Please submit the completed forms to The Wetlands Institute. Standard mail, fax, or emails are all accepted for submission. Specific details about our Science Education at Sea (SEAS) Program can be found on our website at: <http://wetlandsinstitute.org/education/seas-trips/>.

**Virtual and/or In-person Participation Available
Programs Occur: September - November and April - June**

Number of Students _____
Field Trip Program Requested _____
Style of Program Requested: In-person Virtual
Programming Season Requested: Fall Spring

Instructions: Please type the answers to the following questions in a word document. The application should not exceed two pages, minus attachments.

Question 1: Summarize why your school would like to participate in a Science Education at Sea (SEAS) Program offered by The Wetlands Institute.

Question 2: How will this program impact student learning?

Question 3: Describe the school, the population it serves, and any particular needs of your students.

Attachments:

Formal Bussing Estimate/Quote (If applicable)

This estimate needs to be from the bussing company that will provide transportation for the anticipated number of students to and from The Wetlands Institute for your program. If you plan on using your school's bus, vans, or parent vehicles, this estimate is not necessary.

Signed Letter of Support from School Administrator

Dear School Administrator:

An educator from your school is applying to receive a scholarship to participate in the Science Education at Sea (SEAS) Program offered by The Wetlands Institute. The SEAS Program is conducted entirely on a boat! Educational activities aboard the vessel cover a broad range of subject areas including plankton, specimen collection, animal handling, horseshoe crabs and dolphins. Whether virtual or in-person, all SEAS Programs are aligned to New Jersey Academic Standards and the North American Association for Environmental Education K-12 Guidelines for Learning, and are tailored to the needs of our visiting teachers and schools.

This scholarship program affords teachers and their students the opportunity to participate in our Science Education at Sea (SEAS) Program entirely free of charge! Through the generous support provided by the Barbara and Jim Summers Environmental Education Scholarship Fund, this scholarship will cover all associated programming fees and the cost of bussing, if applicable.

We are very excited about your school applying for this opportunity and look forward to the possibility of working with your teacher and students. If you have any questions or concerns, feel free to contact me at education@wetlandsinstitute.org or 609-368-1211.

Sincerely,

Dr. Lenore Tedesco
Executive Director
The Wetlands Institute

I have read the above and support participation in this program:
