## Branching Activities for Living in a Fantasy World

- \* Visit your local library and research a nature myth that interests you!
- \* Pick a science experiment to try! Make sure to make a hypothesis of what your results will be before you conduct your experiment! Some ideas are making a bottle rocket, making slime, making an exploding volcano, or making elephant toothpaste!
- \* Enjoy the warm weather and fresh air by exploring somewhere new! Visit a hiking trail, park, or nature center you've never been to before! Make sure to look for evidence of animals or even Big Foot!

### Recipe for Elephant Toothpaste:

- grab a clean 1-liter soda bottle
- add 4 oz. of hydrogen peroxide
- add a couple squirts of liquid dish soap
- add a couple drops of food coloring and glitter for some sparkle!
- in a small container mix 1 packet of dry yeast and 4 tablespoons of warm water
- pour your yeast mixture into your soda bottle
