Branching Activities for Backyard Birds

Make a bird feeder for your backyard-You can use an old milk carton, orange peel, or pinecone! These feeders can help birds in the winter when food is scarce.

Check out a live bird cam or feeder cam online!
See some places below that offer live bird cams:

- The Wetlands Institute Live Osprey Cams
- Cornell Lab Bird Cams
- Bird Cams National Audubon Society

Make your backyard bird friendly by...

- providing a variety of feeders
- adding a water source
- planting a bird friendly garden
- offering opportunities to nest

Consider adding decals to your window to stop bird and window collisions or learn to make migration-friendly window stickers!

Go Bird Watching– visit a park, forest, or your own backyard and keep track of all the different species of birds you see!
