

Fly Into Our

NEHST

Branching Activities for Backyard Mammals

- * Check out a local wooded area or forest and go on an animal home scavenger hunt! Count how many burrows or dens you find.

Nature Education
for

- * Build a brush pile in your backyard! Turn leaves, tree limbs, and other yard debris into a simple brush pile to provide extra shelter for wild animals.

HOMESCHOOL

Students & Teachers

- * Calculate the biodiversity index in your backyard using this simple equation! Biodiversity index=number of species in the area divided by the total number of individuals in the area.
