Biome STEM Challenge

Create your own biome creature. Pick a stuffed animal and a biome. Transform your plush into an animal that is well-suited for its environment. Have fun with it— give your creature a name and a story!

STEM Challenge

Go For A Nature Walk!

Bring your notebook and record observations of the world around you. What is the weather like? How is the climate in this area? What animals do you see or have seen here before? What season is it? Get curious about the world around you!

Seed Bombs

As the temperature starts to warm up, plants will begin to grow. Help your local pollinators by planting native wildflowers! Create these seed bombs to add to your garden or flower beds.

Happy Growing!

Build A Terrarium

Bring the jungle inside by creating your very own terrarium! The closed container, high humidity, and warm temperatures inside create an atmosphere similar to the jungle.

Terrarium Building

Biome Triorama

You may have heard of a diorama, but have you heard of a triorama? Create your very own biome triorama as large or as small as you would like!

Triorama Guide

Ask A Biologist

Learn more about biomes around the world—click on the links to take a deeper dive. Learn about what it takes to survive in these different ecosystems.
